INTRODUCTION

A. Purpose of the Unified Planning Work Program

The Fiscal Year 2020 Unified Planning Work Program (UPWP) describes the organization's planning goals and activities, provides cost estimates for each activity, identifies funding sources, and outlines a work schedule for the period July 1, 2019 through June 30, 2020. The document is organized into five major sections as follows:

1. Administration
2. Public Involvement
3. Data Collection
4. System Planning
5. Proposed Funding Source By Task

The five sections of the UPWP include information on the parties responsible for carrying out the various planning activities. These activities are mostly geared towards the preparation and development of the Long-Range Transportation Plan (LRTP) with at least a 20-year horizon and a Transportation Improvement Program (TIP) which defines funded projects over four years. Public participation is an integral part throughout the planning process.

B. FAST Act Planning Factors

The transportation planning process must explicitly address the eleven planning factors identified by the Fixing America's Surface Transportation Act (FAST Act), 23 CFR 450 Subpart C, 23 CFR 420 Subpart A, and 49 CFR Subtitle A, listed below:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and non-motorized users;
3. Increase the security of the surface transportation system for motorized and non-motorized users;
4. Increase the accessibility and mobility options available to people and for freight;
5. Protect and enhance the environment, promote energy conservation, and improve quality of life;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve transportation system resiliency and reliability;
10. Reduce (or mitigate) the storm water impacts of the surface transportation; and
11. Enhance travel and tourism.

The overall planning program is designed to comply with the requirements of FAST Act which was signed into law on December 4, 2015. It encourages MPOs to address the planning factors listed above when solving current and future transportation issues.

C. Planning Emphasis Areas (PEAs)

On April 23, 2014, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) jointly issued the Planning Emphasis Areas (PEAs), which include transition to performance based planning and programming as per FAST Act, 23 CFR 450 Subpart C, 23 CFR 420 Subpart A, and 49 CFR Subtitle A, cooperation and coordination across MPO boundaries and across State boundaries where appropriate to ensure a regional approach to transportation planning, and access to essential services in which the transportation planning process identifies transportation connectivity gaps and solutions to address those gaps.

The FAST Act federal transportation regulations and guidelines outline planning emphasis areas as (1) FAST Act Implementation, (2) Regional Models of Cooperation, and (3) Ladders of Opportunity. MPOs are required to include these emphasis areas in the FY 2020 UPWP. The GHMPO transportation planning process will include the following planning emphasis areas addressed in the UPWP work elements as listed below:

- FAST Act Implementation – Transition to performance-based planning and programming. Performance-based planning and programming includes using transportation performance measures, setting targets, reporting performance, and programming transportation investments directed towards the achievement of transportation system performance outcomes. GHMPO will address this planning emphasis area by coordinating and collaborating with GDOT, FHWA, and FTA on establishment of performance measures, and then collect and compile the necessary data to measure such performance. In addition, GHMPO will address this planning emphasis area through the implementation of the following UPWP work elements:
 - *4.4 Long-Range Plan* – Continue to manage the implementation of the transportation projects in the 2040 RTP update.
 - *4.5 Transportation Improvement Program* – Amend the TIP, as necessary.
- Regional Models of Cooperation - Ensure a regional approach to transportation planning by promoting cooperation and coordination across transit agency, local government, and MPO boundaries to improve the effectiveness of transportation decision making. A coordinated approach supports common goals and capitalizes on opportunities related to project delivery, congestion management, safety, freight, livability and commerce across boundaries. GHMPO will address this planning emphasis area by coordinating and collaborating with the Atlanta Regional Commission through interagency consultation and development of performance measures for the region. GHMPO will further work with neighboring local governments on projects that cross jurisdictional boundaries. In addition, GHMPO will address this planning emphasis area through the implementation of the following UPWP work elements:
 - *1.1 Operations and Administration* – Provide opportunities for an open and inclusive process assuring continuing, comprehensive, and cooperative decision making with all jurisdictions in the GHMPO planning area. Coordinate/participate with other resource agencies at both state and local level on various project specific and/or on-going activities. Work with the Georgia Association of Metropolitan Planning Organizations (GAMPO) and other state and national organizations on the role of MPOs in statewide and metropolitan transportation planning. Support statewide GAMPO activities through participation in meetings and events.
 - *4.1 Intermodal Planning* – Pursue Hall County Trails Initiative with the citizen initiated trails group. Work with Hall Area Transit on transit expansion or improvement initiatives.

- Ladders of Opportunity – Access to essential services. GHMPO, along with Hall Area Transit, will identify transportation connectivity gaps in accessing essential services such as employment, healthcare, schools/education and recreation. In addition, GHMPO will address this planning emphasis area through the implementation of the following UPWP work elements:
 - *1.1 Operations and Administration* – Provide opportunities for an open and inclusive process assuring continuing, comprehensive, and cooperative decision making with all jurisdictions in the GHMPO planning area.
 - *2.1 Community Outreach/Education* – Research potential procedures to evaluate the effects of development and transportation investments on communities including environmental justice issues. Continue to explore ways to make the GHMPO transportation planning process more transparent and inclusionary.
 - *4.1 Intermodal Planning* – Pursue Hall County Trails Initiative with the citizen initiated trails group. Work with Hall Area Transit on transit expansion or improvement initiatives.

D. Gainesville-Hall Metropolitan Planning Organization (GHMPO) Planning Process

The UPWP originated from the Federal-Aid Highway Act of 1973 and is prepared annually to describe the ongoing transportation planning process for a Metropolitan Planning Organization (MPO). FAST Act, 23 CFR 450 Subpart C, 23 CFR 420 Subpart A, and 49 CFR Subtitle A, is the most recent law establishing federal surface transportation policy and funding reauthorizations.

As the designated MPO for the Gainesville-Hall Area, the Gainesville-Hall Metropolitan Planning Organization is responsible under Section 134 of Title 23, United States Code, for carrying out a “continuing, cooperative and comprehensive” (3-C) transportation planning process. The process uses three committees (Policy Committee (PC) – the decision making body, Technical Coordinating Committee (TCC) – the staff, and Citizens Advisory Committee (CAC) – the public) to develop and carry out a comprehensive transportation planning process and to ensure that programs, improvements, and expenditures are consistent with regional goals, policies, and plans.

- The Policy Committee is the decision making body and is represented by elected officials from the member jurisdictions and an official from the Georgia Department of Transportation (GDOT). The committee is responsible for taking into consideration the recommendations from the Citizens Advisory Committee and the Technical Coordinating Committee when adopting plans or setting policy.
- The Technical Coordinating Committee membership includes staff from the member jurisdictions, various federal, state, and local agencies and associations that have a technical knowledge of transportation or planning. The TCC evaluates transportation plans and projects based on whether or not they are technically warranted and financially feasible.
- The Citizens Advisory Committee consists of volunteer members who are interested in transportation issues. They are appointed by their member jurisdictions. The CAC is responsible for ensuring that values and interests of the citizens in Hall County and a portion of Jackson County are taken into consideration in the transportation planning process.

The following agencies have roles in the development, implementation, approval of, and/or funding of this UPWP:

U.S. Department of Transportation

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) jointly approve the UPWP. These two federal agencies provide valuable input into the process leading to the development of this document.

FHWA develops regulations, policies, and guidelines to achieve safety, access, economic development, and other goals of FHWA programs, and provides federal financial resources, technical training, education, and assistance to state and local transportation agencies.

FTA provides financial assistance and oversees grants to state and local transit providers, primarily through its regional and metropolitan offices. FTA is responsible for ensuring that grantees follow federal mandates along with statutory and administrative requirements. To better facilitate grant applications for the FTAs 5303 funds, the estimated FY2021 funds are shown for the appropriate work categories.

Georgia Department of Transportation

The Georgia Department of Transportation (GDOT) serves as the liaison between the MPO, the state, and the United States Department of Transportation (USDOT). The MPO works cooperatively with GDOT on various transportation tasks, which include: Transportation Improvement Program, Long Range Transportation Plan, and Travel Demand Modeling. GDOT is the direct recipient of federal planning funds, and the MPOs are sub-recipients of these funds. Therefore, GDOT provides grant oversight of Federal Planning (PL) funds. GDOT also reviews and approves UPWPs and TIPs before requesting concurrency from FHWA and FTA.

E. GHMPO's Planning Priorities in FY 2020

The GHMPO will work towards the following 17 planning priorities in FY 2020:

1. Complete the federally-required update of the Gainesville-Hall Regional Transportation Plan by June 2020 (See Task #4, Sub-Element 4.3).
