# Background

The Gainesville-Hall Metropolitan Planning Organization (GHMPO) is the federally designated transportation planning body in Northeast Georgia consisting of the Gainesville urbanized area, Hall County, and the western portion of Jackson County. GHMPO was formed on February 25, 2003, and is housed within the Hall County Planning Department.

The Georgia Department of Transportation (GDOT), jointly with the Governor's Office of Highway Safety, provides a statewide accident reporting database titled the Georgia Electronic Accident Reporting System (GEARS). Using GEARS, agencies across the state are able to electronically submit accident data that contains information such as number of injuries, number of fatalities, accident type, accident location, time of day, gender and age of the driver, and GPS coordinates. Reporting crashes electronically not only saves local agencies thousands of dollars a year but also provides transportation professionals valuable data that can be used to help identify high crash locations and areas that may require additional funding for safety and operational improvements in the future.

GHMPO has produced two crash profiles in the past. The first report was created in 2008 and analyzed crash data between the years 2000 and 2007 in Hall County. A second report was created in 2016 and analyzed data from 2011 through 2015 in both Hall and Jackson Counties. A similar report was created in 2017 which analyzed data from 2012-2016.

# 2018 Crash Statistics

2018 Crash Summary	
Total Crashes:	2,250
Injury Crashes:	510
Total Injured:	826
Fatal Crashes:	14
Total Fatalities:	15
Commercial Vehicle Crashes:	123
Property Damage Crashes:	1,726
Private Property Crashes:	193
Work Zone Crashes:	2

The table to the left highlights the reported crash numbers across a variety of categories throughout Jackson County in 2018.

The table below highlights high accidents locations in Jackson County in 2016. State Routes 15, 98, and 11 as well as US Highway 129 and I-85 are the locations where the highest amount of crashes occurred.

High Accident Roads & Locations						
From: 1/1/2018 - 12/31/2018						
	Total Collisions	Total Fatal Collisions	Total Injury Collision	Total Property Damage	Number Killed	Number Injured
SR 15 & SR 98	31	1	9	21	1	17
US 129 & I-85	23	0	1	22	0	1
SR 98 & I-85	22	0	8	13	0	14
SR 15 & SR 334	17	1	9	7	1	22
SR 11 & I-85	15	0	5	10	0	7
SR 82 & I-85	12	0	2	10	0	9
SR 15	11	0	2	9	0	2
SR 15 & SR 326	10	1	5	4	1	10
SR 98	7	0	1	6	0	1
Sanford Rd & Watkins Farm Rd	6	0	4	2	0	5
SR 53 & Curk Roberts Rd	6	0	3	3	0	4
SR 124 & SR 332	6	0	1	5	0	3
SR 11 & Panther Drive	6	1	2	3	1	2
SR 53 & New Cut Road	6	0	2	4	0	3
SR 53 & New Liberty Church Rd	6	0	5	1	0	13

# 2018 Crash Locations

In 2018, there were **2,250** reported **crashes** across Jackson County.

## 2018 Injury Crashes

In 2018, there were **510** reported **injury crashes** across Jackson County, with a total of **826** injuries.

# 2018 Fatality Crash Locations

In 2018, there were **14** reported **fatality crashes** resulting in **15 fatalities** across Jackson County.

## 2018 Hot Spots

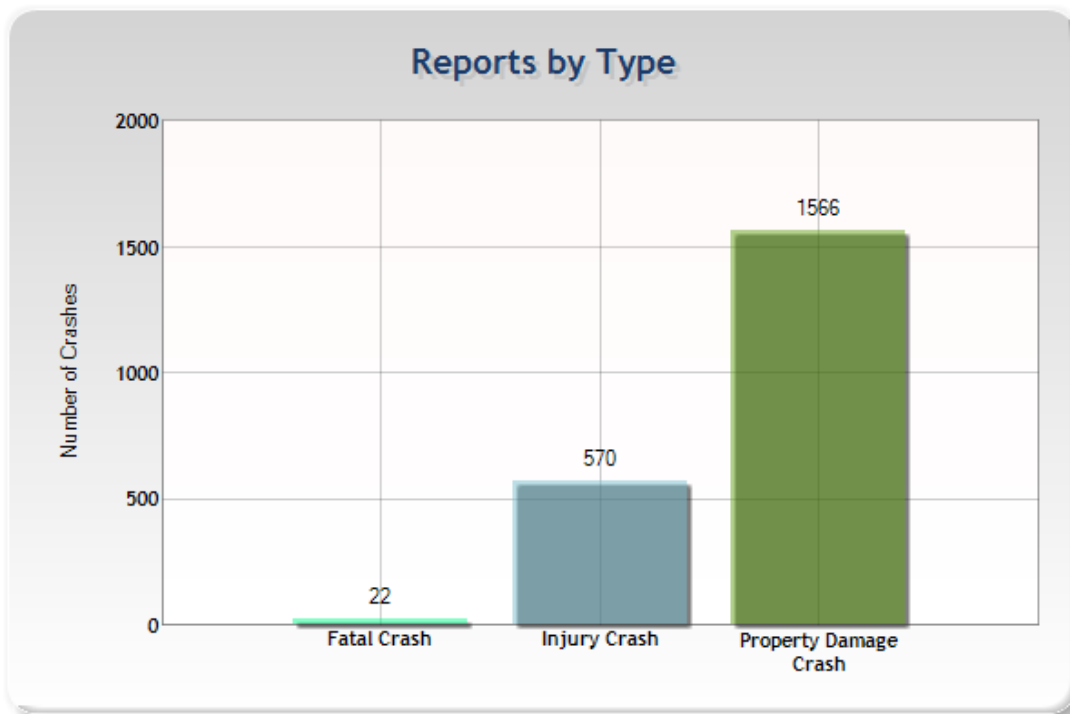

In the map below, hot spots for overall crashes in 2018 are highlighted in red. As expected, overall crash rates are higher within more urbanized areas of the county than in rural areas.

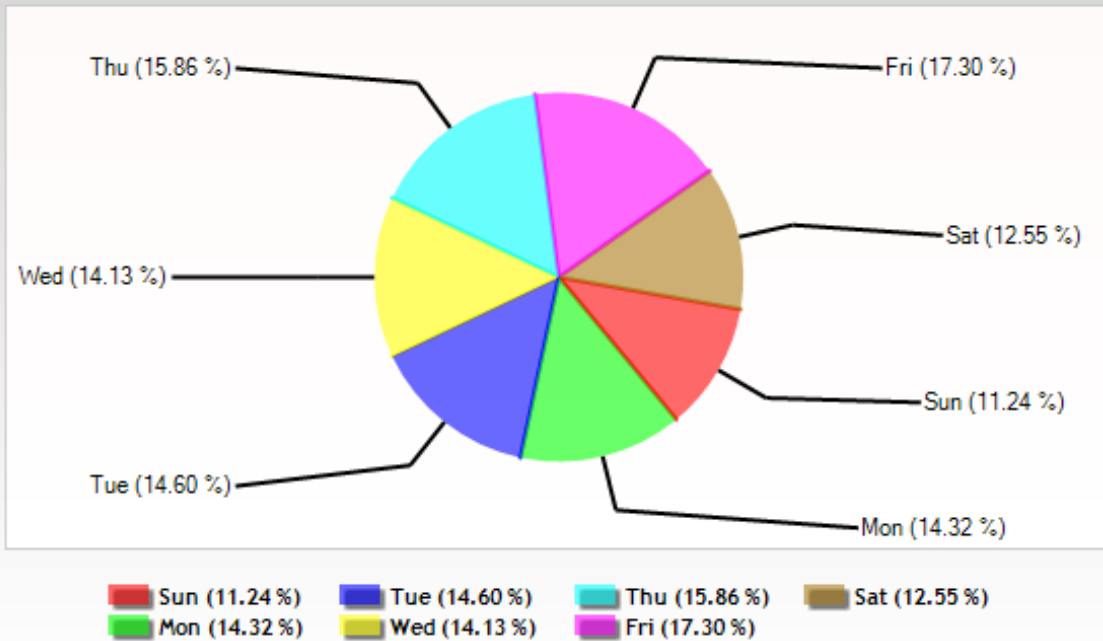

# 2018 Crash Charts
