Mr. Stradley commented that he feels the issue should be amended by the Policy Committee. Quinton Spann, GDOT, commented that any additional projects would be determined by available GDOT funds but the Policy Committee could make a request to have it added. Mr. Stradley's final comment concerned the freight study. Mr. Stradley commented that there are multiple studies going on by both Pond Engineering, CDM Smith, and Arcadis but there is no coordination between the groups regarding their studies. Mr. Stradley stated that he believes there needs to be more coordination among the different studies and asked if GDOT was involved in the studies.
