### **6. Approval of Draft PL Fund Application for the SR 53 Bypass Study**

Mr. Boyd informed the Policy Committee of efforts to apply for additional PL funds to conduct a State Route 53 Bypass Study, which would seek to evaluate options for alleviating congestion in the downtown areas of the Towns of Hoschton and Braselton. The application is requesting \$100,000 in PL funds with \$25,000 in local matching funds provided by Jackson County, Braselton, and Hoschton. Additionally, GDOT has had conversations with GHMPO about getting involved with the study and extending the study scope farther north along I-85 and farther south into Barrow County, which is located within the Atlanta Regional Commission planning area. While GDOT is still working through the details on the possible study scope, they have asked GHMPO committees to take action on the application as it currently stands.

## **7. Approval of Draft Amendment #1 to the FY 2022 UPWP**

## **8. 2021 Crash Profiles – Hall County & Jackson County**

Using data retrieved from the Georgia Electronic Accident Reporting System (GEARS), these documents contain maps showing collision locations for regular collision, collisions with an injury, collisions with fatalities, as well as additional data for different conditions surrounding the collisions. Additionally, the Crash Profiles contain data pertaining to five-year trends in both counties. Mr. Haire explained that the pages in the meeting packet were excerpts from the full document, which is available on the GHMPO website. Mr. Haire added that he could provide a link to the full reports, as well as the crash data in a map package for local jurisdiction use, if any Policy Committee members were interested.
